FIRE PROTECTIVE SIGNALLING SYSTEM CERTIFICATE

This Certifies that the Company / Companies detailed below are Listed by ULC and are authorized to install, monitor, and maintain Fire Protective Signalling Systems in compliance with the requirements in the Standard CAN/ULC 561.

The assignment of responsibilities as indicated in the following paragraphs shall be set out in a written contract between the companies, where two different companies are involved.

The Monitoring Company named on this certificate bears the responsibility for the monitoring of the status of signals generated by the system, signal disposition and for the retention of records respecting these activities.

The Service Company named on this certificate bears the responsibility for the correctness of the system installation, periodic testing, maintenance repair, as well as the retention of records respecting these activities. Additionally, it is the responsibility of the Service Company to confirm that the equipment used in the installation is ULC Labelled and is Listed for the application. All required services shall be provided for in a written contract between the Company and the Subscriber.

ULC makes no representations or warranties, expressed or implied, that the system will prevent any loss by fire, smoke, water damage, or otherwise, or that the system will in all cases provide the protection for which it is installed or intended. The certificate is evidence that the protective signalling system installation is monitored by a ULC Listed Monitoring Company and that the installation, maintenance and service is provided by a ULC Listed Installation Company, which are subject to periodic routine audits by ULC Representatives. This certificate is to be posted at the Subscriber's site and is valid only with a current maintenance contract.

ULC is not an insurer and does not assume any obligation or undertake to discharge any liability of the Company / Companies or any other party for any loss, which may result from failure of equipment, incorrect installation, non-conformity with requirements, cancellation of this certificate or withdrawal of the Company / Companies from Listing by ULC.
